Western Suffolk BOCES Non-Discrimination Notice

The Board of Cooperative Educational Services of Western Suffolk County, New York does not discriminate on the basis of age, religion, creed, ethnic origin, marital status, race, color, sex, sexual orientation, veteran status, disability or handicap in the educational programs or activities it operates. This policy of non-discrimination includes the recruitment, hiring and advancement of employees; salaries, pay and other benefits; counseling services to students; student access to course offerings; lawful political activities; educational programs and other activities; and the business activities of the Board. The coordinator of activities relating to compliance with non-discrimination, anti-hassassment, Title IX and Section 504 of the Rehabilitation Act of 1973 (as amended) is Thomas Reilly who may be contacted at: 507 Deer Park Road, PO Box 8007, Huntington Station, New York 11746-9007, or 631/549-4900, x204.

Welcome to Western Suffolk BOCES

2011-2012

Welcome to Western Suffolk BOCES

The Board of Cooperative Educational Services provides educational programs and opportunities to meet distinct needs within 18 local school districts. One of three BOCES on Long Island, Western Suffolk BOCES provides 70 services to two or more districts more economically and efficiently than one district alone can provide. Western Suffolk BOCES helps school-age children and adults gain the skills and knowledge they need to be successful in the workplace.

Western Suffolk BOCES has an elected Board of seven representatives from the 210 square mile area that makes up the western Suffolk County towns of Babylon, Huntington and Smithtown. BOCES Board members are elected by the Boards of Education of the 18 participating districts for three-year terms and are responsible for policy governing this BOCES.

The Boards of Cooperative Educational Services were created in 1948 by the New York State Legislature. Today 37 BOCES in New York State serve 721 local school districts.

Career & Technical Education

This division provides career and technical training to more than 2,000 secondary students as well as 10,000 adults at the five campuses of Wilson Technological Center. Online learning opportunities are available for both high school students and adults. To meet the educational needs and career aspirations of high school students, Tech offers the Center for Alternative Education and these 39 secondary programs:

Advertising/Graphic Design	Electronic Manufacturing*
Aircraft Technology	Equine Studies
Architectural Design/CAD	Fashion Merchandising/Design
Audio Production	Food Services*
Auto Body Repair	Heating/Ventilation/AC
Auto Maintenance*	Life Skills*

*smaller class size program

Instructional Support Services

Western Suffolk BOCES offers a variety of instructional support, planning, and technology services that take advantage of experienced instructional staff and educators knowledgeable about technological advances. Offerings include:

- Regional Intranet Services
- Comprehensive School Health/Student Support Services
- Instructional Technology Support Services
- Law Related Education Programs
- Outdoor/Environmental Education
- Exploratory Enrichment
- School Library System
- Staff Development Programs
- Regional Academic Summer School
- Technology Planning & Integration Services
- School Improvement Services
- Long Range Planning Studies (demographics/space assessment)
- Automated Educational Substitute Operator (AESOP)
- Regional State Test Center
- Race to the Top Network Support
- Suffolk's Edge Teacher Center
- Distance Learning Services

Special Education

Upon request of the local Committees on Special Education, BOCES provides highly individualized educational programs to meet the unique needs of children, ages 5 to 21, who have disabilities that typically require more intensive service than can be delivered within the local school district. Non-disabled students who require specialized services also attend programs within Special Education.

Approximately 1,000 students with intellectual disabilities; autism; physical, emotional or sensory impairments; or some combination of these disabilities attend BOCES centers or classes in participating school districts. BOCES itinerant teachers provide diagnostic and support services to another 450 students in their local school districts. BOCES provides high quality instruction that enhances each student's communication and social interaction and builds skills for Regents-level coursework or functioning academic skills.

BOCES alternative programs provide a nurturing environment with appropriate support services. Our instructional programs are individualized and provide a full array of special and related services as well as academic instruction similar to that available in local school districts. Classes are highly structured to facilitate behavioral changes that may help the student return to general education.

Total Public School Enrollment	88,773

Administrative Budget. The costs associated with the BOCES Administrative Budget and the Capital Budget are borne by the 18 participating school districts based on a three-year weighted average daily attendance rate.

School districts that request Western Suffolk BOCES services pay a prorated service fee or tuition as itemized in a shared-services contract. School districts receive state aid on many services based on the previous year's audited expenses of BOCES programs and services. The wealth of each component district, its aid ratio and the cost of Western Suffolk BOCES services determine how much aid participating districts receive. Local districts receive their state aid for the BOCES programs and services they used in the year following the district's expenditures.
