

# Earth Science Regents The "New" Part D

In the spring of 2008 a new Part D of the Earth Science Regents was administered. This performance test consists of hands-on tasks set up at three stations. These tasks are designed to measure student achievement of the New York State Learning Standards for Mathematics, Science and Technology as included in the Physical Setting/Earth Science Core Curriculum.

This workshop has been designed for teachers and administrators to familiarize themselves with the administration and scoring of the test. Topics will include:

- an overview of the laboratory test
- hands on experience with the actual performance tasks
- scoring of the tasks
- discussion and questions regarding the manipulative components and other concerns
