

NEW DATES

Intel® Teach Program Leadership Forum

What are the most important actions instructional leaders can take to promote the effective use of technology in their classrooms?

The Intel Teach Leadership Forum offers educational administrators (state department, district curriculum and technology directors and school administrators, principals and vice principals) an opportunity to explore answers to this question and develop an action plan to lead change in their state, school or district.

In this forum, you will:

- ❖ Examine the critical role educational leaders play in promoting, modeling, and supporting effective integration of technology
- ❖ Identify, access, and use available resources and technology tools, including Web 2.0, to support professional development, educator practice, and student learning
- ❖ Create a prioritized list of specific leadership behaviors that promote the integration of technology as a tool to improve student learning
- ❖ Review, analyze, and apply the ISTE Essential Conditions and ISTE National Educational Technology Standards for Leaders/Administrators (NETS-A)
- ❖ Synthesize understanding and begin to develop an Action Plan to implement in your school or district
