

Science 21 Staff Development Program

Science 21 is an inquiry-based science program for students in Grades K-6, that is being implemented in several Long Island school districts. To assist teachers new to the program, teachers who have changed grade levels, or those who simply want a "refresher," Science 21 workshops will be offered for each grade level. All courses listed below will cover Units I and II and include a general overview of the activities, instructional strategies, and new components and developments in the program. (Workshops for Units III & IV will be scheduled for the spring.) Times and places are as follows:

Kindergarten

- I Using my Senses to Learn and Appreciate Science
 - II Using My Senses to Learn About Me and My World
- September 28, 2010**

Bob Plaia is a career educator who began as a science teacher at the junior high and high school levels. He has taught biology, chemistry, earth science, and health. Having served as a science department chair, assistant principal, principal, and assistant superintendent of schools, Bob retired in 1995 and is currently serving as Western Suffolk BOCES' Science Consultant.
