

Using Science Web Sites for Lesson Plans, Laboratory Experiments, Classroom Enrichment for the Elementary School Teacher - Grades K-4

Technology is a living part of science but teacher time is precious. If you have little time to enrich your science lessons by "surfing" the web, then this is your workshop. Designed specially for elementary teachers K-4, various appropriate grade level (K-4) web sites will be explored.

Teachers will have the opportunity to download lesson plans, teacher demonstrations, games and worksheets.

Bob Plaia is a career educator who began as a science teacher at the junior high and high school levels. He has taught biology, chemistry, earth science, physics and health. Having served as a science department chairperson, assistant principal, principal, and assistant superintendent of schools, Bob retired in 1995 and is currently serving as Western Suffolk BOCES' Science Consultant.
