

Creating Differentiated Social Studies Lessons Utilizing the SmartBoard Notebook Software

Come learn another method of engaging learners and differentiating lessons while putting some fun into the classroom with the SmartBoard Notebook software. We will explore many internet sources to include a wide variety of activities with maps, pictures, video, and sound files. We will then use these sites to create games, listening activities, and virtual field trips. This workshop is intended for teachers who have basic SMART Board skills and would like to utilize technology to enhance instruction for all students within their classrooms.

****Teachers should bring a flash drive to save materials****

Melissa Walter is a certified teacher working as a Senior Technology Program Specialist at Western Suffolk BOCES. Prior to coming to BOCES she worked for the Commack School District and she taught computer technology in Adult Ed. She received her Certificate in Educational Computing and holds a Masters degree from Stony Brook University.
