

# Science 21 Staff Development Program

**Science 21** is an inquiry-based science program for students in Grades K-6 that is being implemented in several Long Island school districts. To assist teachers new to the program, teachers who have changed grade levels, or those who simply want a "refresher," Science 21 workshops will be offered for each grade level. All courses listed below will cover Units III and IV and include a general overview of the activities, instructional strategies, and new components and developments in the program. Times and places are as follows:

### Kindergarten

III Using my Senses to Learn About Other Living Things  
IV Using My Senses to Learn About Non-Living Things  
**January 4, 2011**

**Bob Plaia** is a career educator who began as a science teacher at the junior high and high school levels. He has taught biology, chemistry, earth science, physics, and health. Having served as a science department chairperson, assistant principal, principal, and assistant superintendent of schools, Bob retired in 1995 and is currently serving as Western Suffolk BOCES' Science Consultant.
