

How to Put the Spark Back Into Teaching Math - Grades 7-12

Often, there comes a time in our careers when we need to rekindle what made us become a teacher at the start. By joining with others who want to learn strategies to use on a new generation of students, we can refresh ourselves and in turn, energize our students.

Topics covered will include:

- Reigniting your class
- New technical additions
- Looking at the "big picture"
- Testimonials and strategies from those whose sparks have been re-ignited
- Math Teachers..."I had a good one, ONCE"

Lawrence Farrell is a former mathematics teacher with 30 years experience. His career spans from teaching Algebra, Geometry and Algebra II/ Trigonometry through the Sequential Mathematics curriculum to Math A/Math B. He has taught at all levels and "tracks" of mathematics from 7th Grade Math to Calculus. He has expertise in various teaching styles and practical strategies in developing mathematical topics. He is presently focusing on the implementation of the new NYS Curriculum and Standards. He has spent the last two years administering sessions at BOCES and various school districts. Lawrence Farrell is also the Mathematics Consultant for Western Suffolk BOCES. "New sessions must be developed to keep mathematics teachers current and motivated". His approach has been and will continue to be asking the question, "What is needed?", followed by a "nuts and bolts" practical approach in responding.
