Accreditation: Western Suffolk BOCES is accredited by the Council on Occupational Education for Aviation Maintenance Technology, Automotive Technical Training, Esthetics, Cosmetology, Diagnostic Medical Sonography, Practical Nursing, Surgical Technology. Contact COE at: 7840 Roswell Rd. Suite 325, Atlanta, GA 30350; phone (770) 396-3898; fax (770) 396-3790; www.council.org

MISSION STATEMENT FOR ADULT EDUCATION: Western Suffolk BOCES provides career training and literacy programs to help adults meet their career goals by developing skills essential for gainful employment, job advancement and new career opportunities.

Wilson Technological Center is the career and technical education division of Western Suffolk BOCES.

4 EASY WAYS TO REGISTER!

Registration ends one week before your class begins. Register early, classes fill quickly! Classes are filled on a "first come, first served basis." As classes fill, every effort is made to schedule additional classes to serve your needs. Full tuition must be received before you can enroll in a class. BOCES reserves the right to change locations, times or dates where necessary, or to cancel classes. Make your check or money order payable to: Western Suffolk BOCES. Unless notified otherwise, you can safely assume your registration is confirmed.

ONLINE — EASIEST!

Follow the instructions at www.wilsontech.org/express
Registration accepted via a secure server.

BY PURCHASE ORDER

Organizations enrolling staff for training can be invoiced if a PO number is provided.

BY PHONE 631-667-6000 x320

With Visa, MasterCard or Discover Card. Have all of your information before calling.

IN-PERSON REGISTRATION

At Dix Hills campus only. Check, money order or credit card.

Expand your options with new skills!

Most classes begin the week of September 11

PREPARE FOR ASE CERTIFICATION AUTOMOTIVE TECHNICAL TRAINING

AUTOMOTIVE TECHNICAL TRAINING

Vehicles are far more sophisticated today than in previous decades and require technicians with more advanced technical training. Wilson Tech, accredited by the National Automotive Technicians Education Foundation (NATEF), is equipped to teach you the skills that will help you advance in this field.

Upon successful completion you will be prepared to sit for the corresponding certification exams which stress knowledge of job-related skills and lead to Automotive Service Excellence (ASE) certification.

CERTIFICATE

Learn the theory and skills to diagnose, service and repair cars, SUV's and light duty trucks. You will use up-to-date electronic and hydraulic equipment to precisely diagnose today's sophisticated vehicle. Prerequisite: High School diploma or equivalent and satisfactory score on a TABE exam and interview. Students must also attend a 4-hour safety orientation workshop. Textbooks included. New students may begin on the first day of most modules.

- Electrical/Electronic systems (260 hrs)
- Automatic Transmission & Transaxle (137 hrs)
- Engine Performance (234 hrs)
- Engine Repair (195 hrs)
- Suspension and Steering Systems (195 hrs)
- Heating & Air Conditioning (156 hrs)
- Brakes (163 hrs)
- Manual Drive Train & Axles (137 hrs)

MOTORCYCLE REPAIR

If you're interested in learning how to make basic repairs to your motorcycle or looking to enter the workforce as an entry-level motorcycle technician, Wilson Tech's Motorcycle Technician Program, in conjunction with North Shore Motorcycles of Garden City Park, offers the classroom and hands-on experience that can give you the basic skills and knowledge you need. All sessions meet at North Shore Motorcycles, 20 Denton Ave. North, Garden City Park, NY, 11040.

MOTORCYCLE MAINTENANCE

Gain the skills and confidence to properly maintain your bike. Learn electrical and fuel systems, basic tune-ups, brakes, tires and suspension, sprockets and drive chain, shaft drive, oil and fluids, radiators, steering, throttles and clutch safety equipment and winterizing. This is a hands-on course so bring your motorcycle! Get a tool list at the first class with recommendations for each student's bike. Bring the service manual for your motorcycle.

18FMOT101A \$375 M 9/11/2017-11/27/2017 North Shore Motorcycles
6:30-9:30PM 30hrs 10 sessions (No Class 9/25)

BICYCLE MAINTENANCE - INTRO

Cycling enthusiasts won't worry about being stranded by the roadside after taking this course. You'll learn the basics of maintaining your bicycle, from bearing replacements system overhauls to basic tune-ups. Learn to make common repairs that bike shop mechanics make. This course is also excellent for law enforcement officers who would like to maintain their own bikes or for those interested in becoming bicycle mechanics. Applicable to all types of bicycles. Bring your bikes!

AVIATION MAINTENANCE TECHNOLOGY

This FAA-approved program provides the hands-on experience to service, repair and overhaul reciprocating and turbine engines and components, powerplant control systems, instrumentation, and aircraft structure.

To prepare for both the Airframe and Powerplant certification, students must complete five semesters (total of 1,910 hours). Call 631-752-1957 for more information and to tour the facility.

Semesters begin Sept., Jan. and May. The program is offered at our Aviation Facility at Republic Airport in Farmingdale. Transfer credits accepted from other Part 147 approved programs.

Tuition includes basic tools for and testing for the Designated Mechanic's Exam (DME). Students must supply standard work shirt or dark tee shirt, work pants and standard work boots to be worn in the hanger. FAA exams (3) extra: \$150 each. Before being admitted into the AMT program, prospective students must take the TABE Survey (test of Adult Basic Education), receive a successful score and meet with administration to determine eligibility into the

FULL TIME HEALTH CARE PROGRAMS!

Diagnostic Medical Sonography, Practical Nursing and Surgical Technology

DIAGNOSTIC MEDICAL SONOGRAPHY

Learn the fascinating field of sonography including OB/GYN, abdomen vascular, echo, and breast ultrasound. This 24-month program integrates basic sciences, medical sciences and instruction in Diagnostic Sonography with supervised clinical experience in hospitals and doctors' offices from Manhattan to Southampton. Students gain valuable hands-on experience in several three-month clinical rotations.

Successful completion of the program leads

to a certificate that qualifies you to sit for any of the five registry examinations in Diagnostic Medical Sonography 60 days prior to graduation. Accredited by the Commission of Accreditation of Allied Health Education Programs (www.caahep.org; 25400 US Highway 19 North, Suite 158, Clearwater, FL 33756; 727/210-2350) upon the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography.

Prerequisites: High School diploma or equivalent; a minimum grade of C in college-level, credit-bearing courses in General Physics, Anatomy & Physiology I & II, Algebra, and English; and a satisfactory score on Pre-Entrance Exam. Graduates from other health programs are welcome to apply. Courses begin in July and have vacation during holiday periods.

Additional costs of approximately \$1,700 for textbooks, uniforms, conference, liability insurance, CPR, physical exam and registry

exam. Financial aid is available to those who qualify.

PRACTICAL NURSING

Learn the skills and knowledge necessary to be a valuable member of today's health care team. The School of Practical Nursing, located at Tech's Northport campus, helps prepare you for licensing as a practical nurse. The program is approved by the NYS Education Department. The low

ratio of students to faculty allows many opportunities for individualized instruction.

For those planning to pursue additional training, Tech is affiliated with registered nursing programs at Helene Fuld College of Nursing, Nassau Community College, Suffolk Community College, SUNY Farmingdale and Molloy College.

Advanced placement is available in the Surgical Technology Program within one year of graduation.

Tuition includes stethoscope and surgical scissors. Additional costs for textbooks, uniforms, licensing fee, physical exam, liability insurance and CPR certification are required for entering program. Financial aid available to those who qualify. Prerequisites: High School diploma or equivalent plus satisfactory score on Pre-Entrance Exam. HEGIS code 5209.20

HEALTH CAREERS OPEN HOUSE

**August 16
6-8pm
Northport Campus
631-261-3600/ Ext. 245**

Prerequisites for Diagnostic Medical Sonography, Practical Nursing and Surgical Technology:

- High school diploma or equivalent plus satisfactory score on the Pre-Entrance Exam.
- Sonography students must also have college credits as specified above.

NOTE: Financial aid available to those who qualify.

START YOUR HEALTH CARE

Surgical Technology

Learn to work closely with surgeons, anesthesiologists and registered nurses to provide patient care throughout surgery. Study setting up the operating room, prepping patients, the disease process and instrumentation. You will be assigned to a local health care facility to work under an experienced health care professional. This program helps prepare you for employment in operating rooms, surgical offices, delivery rooms, emergency departments, physician and dentist offices, central supply services, cardiac catheterization clinics, tissue banks and ambulatory surgical care sites. Advanced placement is available in the Practical Nursing program within one year of graduation. Accredited by the Commission

on Accreditation of Allied Health Education Programs (www.caahep.org; 25400 US Highway 19 North, Clearwater, FL 33756; 727-210-2350) upon the recommendation of the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting. Additional costs for textbooks, malpractice insurance, uniform, physical exam, and CPR certification are required for entering program. Financial aid available to those who qualify. Prerequisites: High School diploma or equivalent plus satisfactory score on Pre-Entrance Exam.

Central Sterile Processing Technician

Looking for a skilled, entry-level position in health care where you will be responsible for a variety of vital services in health facilities? Apply now to become a certified Central Sterile Processing Technician who processes and sterilizes surgical instruments in hospitals, surgical centers and other health facilities. The course will help prepare entry-level technicians and refresh current technicians who want to earn certification from the International Association of Healthcare Central Service Material Management (IAHCSMM). Scientific principles of processing, sterilization, storage, distribution and inventory control of medical and surgical instruments and equipment for the Operating Room, Emergency Room and other areas of the hospital or healthcare facility will be stressed. This program will cover the primary responsibilities of the technicians and provide the knowledge necessary to be successful in this important field. Study anatomy and physiology, microbiology,

infection control, disinfection and sterilization procedures, surgical instrumentation, and packaging and management of patient care supplies and equipment.

The coursework incorporates classroom and laboratory learning activities and resources and will include a 400-hour Clinical Internship to be scheduled upon completion of 250 classroom hours. Upon successful completion of the course, students will be eligible to take the IAHCSMM certification examination for Certified Central Service Technician. Prerequisites: High School diploma or equivalent, completed physical examination and successful score on TABE Survey test. Additional costs: uniform approximately \$100, certification exam \$105. Textbook additional (www.wilsontech.org/bookstore).

63 classroom sessions followed by 400 clinical hours.

EKG / MONITOR TECHNICIAN

Satisfactory completion of this course will help prepare you to work as an entry level EKG or monitor technician. Learn to identify heart rhythms and collect diagnostic quality recordings of the heart's electrical and mechanical activity. Learn to monitor cardiac function in a critical care or emergency room setting. Gain the knowledge and skills to assist doctors and nurses by recognizing and reporting changes. The curriculum includes cardiac anatomy and physiology, 12 lead and rhythm strip analysis, lead placement and 12 lead EKG. Rhythm strip practice will enhance learning and clinical skills. You must earn a final grade of 90% to receive a certificate of completion. Testing fee separate. High School Diploma or equivalent is required to sit for the NCCT exam.

Textbook additional and may be purchased online. Students are encouraged to purchase review books and practice exams from NCCT Customer Service at 1-800-875-4404 or www.ncctinc.com (approx. \$40).

Prepare Now for the Pre-Entrance Exam!

All applicants to the Diagnostic Medical Sonography, Practical Nursing, and Surgical Technology programs must achieve a satisfactory score on the Pre-Entrance Exam (also known as Test for Academic Skills) and have a high school diploma or equivalent. These three programs have substantial class work and homework that require students to be proficient readers with a wide vocabulary and to be competent math problem solvers. BOCES highly recommends that students take the Prep Class for Pre-Entrance Exams, however, those who have completed a recent academic program with strong grades may consider proceeding directly to the Pre-Entrance Exam. Most students find that the Prep Class for the Pre-Entrance Exam helps them prepare for the rigorous Pre-Entrance Exam, gain self-confidence, and solidify their interest in pursuing the academic work necessary to succeed in these programs.

Note: A successful score on the Pre-Entrance Exam is the first step in applying to these three programs but does not guarantee admission.

Prep Class for Pre-Entrance Exams:

Practical Nursing, Surgical Technology & Diagnostic Medical Sonography

BOCES statistics indicate that the passing rate on the Pre-Entrance Exam is higher for those who complete this Prep Class. To enter these three programs, you must satisfactorily pass the Pre-Entrance Exam. Take this Prep Course to help you prepare for your Pre-Entrance Exam. Work on reading comprehension, basic math skills, and critical thinking. Textbook additional (www.wilsontech.org/bookstore).

18FPRE101A 6:30-9:30PM \$250 TU/TH 10/24/2017-11/30/2017 NPT/209

Pre-Entrance Exams (TEAS) may be taken once a semester. Exam fee is \$125.

The TEAS Pre-Entrance Exam is composed of the following areas: general math, science, reading comprehension, and English and language usage. If you have any questions about the Pre-Entrance Exam or you have a current IEP and are requesting testing modifications, call 631-261-3600, ext. 245.

While all prospective students take the same Pre-Entrance Exam, register with the course number of the program you hope to enter.

Build Your Foundation for a Career in Health Care

ANATOMY AND PHYSIOLOGY FOR HEALTH CAREERS

The study of the human body and its systems is the first course in any Health Careers program. Careers in nursing, physical therapy, surgical technology, medical assisting, sports rehabilitation and personal training are a few careers that require a solid understanding of the human body. College level Anatomy and Physiology encompasses a vast body of knowledge causing many students to be overwhelmed and easily discouraged. This course offers an introduction to the human body, provides an understanding of body systems and lays the foundation for more detailed anatomy courses. This course is strongly recommended for anyone who is considering applying to a health career program. Textbook additional (www.wilsontech.org/bookstore).

CERTIFICATION PROGRAM

BECOME A RECOVERY COACH

NOTE: These classes can be taken by CASAC (Credentialed Alcohol and Substance Abuse Counselor) and CPS (Credentialed Prevention Specialist), & for re-credentialed and continuing education credits.

Prepare to work in the addiction and mental health field as a Recovery Coach who helps people along the path of recovery—either before, during, after or instead of treatment. Work in your own practice or in facilities such as community outreach centers, detox facilities, residential centers and hospitals. Recovery Coaches do not provide clinical help or dispense medication; instead they work with the recoveree, either as a solo coach or as part of a team. Learn to help patients engage with treatment and help them develop the various skills needed for recovery.

This class fulfills the 60 hour educational requirements set forth by NYS and the Office of Alcoholism and Substance Abuse Services (OASAS) to become a NYS-certified Addiction Recovery Coach or Recovery Peer Advocate. Class includes extensive preparation for the certification exam. Instructor will provide information pertaining to exam testing locations and the application process. Class has four modules:

-
- MODULE I-RECOVERY COACH ACADEMY (30HRS)**
 - MODULE II-NYS ETHICS (12HRS)**
 - MODULE III-MEDICALLY ASSISTED TREATMENT* (6HRS)**
 - MODULE IV-SPIRITUALITY (12HRS)**

*Module includes NARCAN training.

Upon successful completion of each module you will receive a HealthSpan.US certificate as well as information to receive your CCAR Certificate (Connecticut Community for Addiction Recovery) which you will need to file your NYS application.

Curriculum includes the role of recovery coaches in the recovery process, core values and guiding principles of recovery, the many dimensions of recovery and recovery coaching, the stages of recovery, wellness planning, ethics and guidelines for making ethical decisions, as well as spirituality and what this means to each individual as it pertains to recovery. The course covers the history, concepts and varieties of Medically Assisted Treatment (MAT) that may be used during recovery pathways that include a medication component. No prerequisites. 100% attendance required without prior approval from the instructor. There will be a \$13/hr make-up fee for any approved hours missed.

ADDITIONAL FEES FOR:

- Bring money order only made out to HealthSpan.US
Manuals and materials (\$139 due on first night of class)
- Application fee for NYS Certification:
 - * Certified Addiction Recovery Coach (CARC) \$100
 - * Certified Recovery Peer Advocate (CRPA) \$175 (includes NYS testing fee)
- NYS Recovery Coach Certification Exam (\$125 will be paid to NYS when application is submitted)

Develop workforce readiness skills and build a foundation for success in networking-related careers and degree programs. Learn skills to use immediately in your job and accelerate your ability to pursue advanced technology certifications.

Learn practical CCNA Routing and Switching networking concepts from network applications to protocols and services. The new CCNA Routing and Switching (CCNA R&S) curriculum is fully aligned with the new CCENT and CCNA R&S certification exams. Students will progress from basic networking to more complex enterprise and theoretical networking models.

CISCO NETWORKING FUNDAMENTALS

For those with no computer or network knowledge, this course will help you gain the necessary understanding of networking technology for entering the Networking Academy. Students will learn such topics as: binary and hexadecimal number systems, number conversion, logic gates, Windows operating system, MS-DOS, computer hardware, networking concepts, networking architecture and topology, cabling, and circuit testing.

CISCO INTRODUCTION TO NETWORKS - MODULE I

The CCNA Routing and Switching introductory courses introduce the architecture, structure, functions, components, and models of the internet and other computer networks. Build a solid foundation for additional training as you learn the principles and structure of IP addressing and the fundamentals of ethernet concepts, media and operations. By the end of this course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. Prerequisite: Basic understanding of computers.

18FCIS109A \$815 TU/TH 10/30/2017-1/8/2018
DH-C/227 6-10PM 70hrs 17 sessions

CISCO ROUTING AND SWITCHING ESSENTIALS - MODULE II

This course describes the architecture, components, and operations of routers and switches in a small network. Learn how to configure a router and a switch for basic functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with RIPv1, RIPv2, single-area and multi-area OSPF, virtual LANs, and inter-VLAN routing in both IPv4 and IPv6 networks. Prerequisite: Intro to Networks.

CABINETMAKING - INTRODUCTION

Learn how to build a cabinet using the same methods that a professional cabinetmaker uses. Through these techniques, you will participate in building a custom sized base cabinet using "face frame" construction. Design and construction details will be clearly shown through the creation of a 3-D model on the computer and you will create a "cut list" showing the exact dimensions of each part to be cut. Learn to accurately cut plywood parts, "dress" solid wood into boards that are flat, straight, square, and dimensionally accurate and proper use of hand tools and machines, safety procedures and how to assemble the components into a completed cabinet. Please bring your own tape measure.

18FCON127A \$485 TH 9/14/2017-12/21/2017
DH-D/Carp 6:30-9:30PM 36hrs 12 sessions

CABINETMAKING - INTERMEDIATE

Picking up after Cabinetmaking- Introduction, learn to create a jig and drill holes for adjustable shelving; build shelves and veneer front edges, cabinet doors and drawer fronts, machine doors and cabinets for European hinges; hang doors on face frame cabinets; build drawer boxes; install drawers using full extension slides; prepare surfaces for finishing; introduce finishing options; and begin finishing process of wood conditioning, sealing and staining. Prerequisite: Cabinetmaking- Introduction or equivalent knowledge of basic cabinetmaking. Please bring eye protection, hearing protection, and a tape measure.

18FCON129A \$325 M 10/23/2017-12/11/2017

CONTINUING EDUCATION

HOME INSPECTION - BUILDING SCIENCE

Home inspectors and home improvement contractors—get your continuing education credits here! Class covers thermodynamics, heat transfer, moisture evaluation, indoor air quality issues, air and vapor barriers, proper construction methods, heat loss and energy saving measures. Learn the basis for the current Energy Star programs and those that will be required in new construction in several townships on Long Island. In the second part of the course, you'll learn ways to insulate attics, exterior walls, basements and crawl spaces to prevent excessive heat loss and moisture. Weather stripping windows and doors, lighting, and evaluating buildings for proper R-value and U-value using scientific testing methods will also be covered. In the last part of the course, you'll discuss high efficiency heating and hot water systems, as well as ventilation systems. Discuss furnaces, boilers, geo-thermal, and other heating methods, with an emphasis on saving energy. Covers high efficiency hot water heaters as well as indirect storage tanks and discuss cooling loads and how to inspect duct systems for air leakage.

18FCON107A \$299 M/W 9/11/2017-
10/11/2017 DH-C/11 6-9PM 24hr 8 sessions

LEAD SAFETY COURSE

This course provides contractors with the 8-hour education and certification necessary for compliance with the federal directive. Developed by the Environmental Protection Agency (EPA), in collaboration with the Department of Housing and Urban Development (HUD), for training renovation, repair and painting contractors how to work safely in housing with lead-based-paint. It complies with EPA's Renovation, Repair, and Painting (RRP) Rule, and HUD's Lead Safe Housing Rule. These .8 CEUs count as part of the biennial 24 CEU credit requirement for home inspectors. The eight modules include discussions and demonstrations on the threat of lead paint, current NYS and federal regulations, the containment of dust and personal safety precautions when working in a lead environment.

18FCON113A \$265 TU 9/11/2017,
9/18/2017 DH-C/11 6-10PM 8hrs
2 sessions

PERSONAL SAFETY DURING INSPECTIONS

Raise your awareness level of hazards hidden and in plain sight during a typical inspection. Review electrical hazards such as the circuit breaker panel, exposed junction boxes and conductors, and wet environments. Identify potential hazards and address exposure and materials used to enhance personal safety during inspection of suspected noxious, flammable and carcinogenic gasses; lead in plumbing and house paint; asbestos; and mold. You will also learn the correct method of preparing the written report and the criteria to make or not make an additional verbal report to client, homeowner and occupants (exigency).

18FCON109A \$105 M 9/25/2017
DH-C/11 6-9PM 3hrs 1 session

RESIDENTIAL BUILDING FOUNDATIONS

Covers slab, crawl space, partial basement, full basement and combination crawl and full basement. Learn to evaluate the integrity of the foundation whether made of poured concrete, cinderblock, brick, natural stone, rubble, tree trunks, permanent wood foundation (PWF) or wood pier. Using photos from actual inspections, we will discuss the impact of stucco and other decorative cement coverings on foundations and foundation inadequacies such as unsupported brick facade, top below grade and voids. Look at more common issues of spalling, efflorescence, vertical cracks, horizontal cracks, "V" shaped cracks, concrete deterioration, bulging, vertical and horizontal displacement, uneven settlement and moisture intrusion.

18FCON108A \$105 M 10/2/2017
DH-C/11 6-9PM 3hrs 1 session

ROOFS, PENETRATIONS AND SUPPORTS

The course will cover the different roof types and building materials seen on new and old homes. Discuss issues about re-shingling over an old layer and stripping a roof. Learn innovative methods for determining the adequacy of a multiple layer roof and the importance of inspecting a roof from within an attic or attic crawl space. Learn how to evaluate penetrations including vent stacks, chimneys, skylights, service entry masts and power vents and how they impact the integrity of the roof. Join the debate on climbing up on the roof or staying on the ground and inspecting the roof with binoculars. Review contractual requirements and best safety practices.

18FCON112A \$105 M 10/16/2017
DH-C/11 6-9PM 3hrs 1 session

WATER, MOISTURE, HUMIDITY, GRADING AND SITE DRAINAGE

Presentations will include moisture and humidity penetration of a home, from mechanical failure of a roof or flashing to "sweating" pipes and leaky appliances. Learn how grading and site drainage are impacted by water issues in the neighborhood.

18FCON110A \$105 M 10/23/2017
DH-C/27 6-10PM 4hrs 1 session

WOOD FRAME RESIDENTIAL DECKS & COMMON CAUSES OF DECK FAILURE

Learn to do a thorough and professional job evaluating deck structures. Discuss the structural components of a deck, material compatibility and good construction practices. The higher decks are constructed, the more the home inspectors need to have the latest knowledge of proper deck construction and inspection techniques. Be sure you understand the range of materials, connectors and fasteners!

DRAFTING / AUTOCAD

AUTOCAD - BEGINNER

Hands-on introduction to 2D AutoCAD drawing as well as the 3D capabilities of the architectural desktop add-on. Learn the beginning skills and commands to use AutoCAD, the most popular desktop computer-aided drawing software. AutoCAD may be used in both manufacturing and architectural environments on a professional level. One student to a computer. Optional lab time will be available one hour before each class so students can complete 3D drawings for their class project.

18FCAD101A \$769 TH 9/14/2017-12/21/2017
DH-C/18 6:30-10PM 42hrs 12 sessions

AUTOCAD AND 3D MODELING - INTERMEDIATE

A continuation of Autocad 1 with the addition of 3D modeling. You will learn to create and use a template with customized settings and title blocks to produce complete drawings. You will also learn to create 3D models of your drawings. The ability to use the Autocad commands introduced in Autocad 1 is required to succeed in this class. Optional lab time will be available one hour before class.

18FCAD103A \$769 TU 9/12/2017-12/19/2017
DH-C/18 6:30-10PM 42hrs 12 sessions

ELECTRICAL

ELECTRICAL INSTALLATION I

Learn basic electrical theory, use of hand tools, materials, proper installation of switches, receptacles and lighting fixtures, special purpose receptacles and applications in order to apply for a job as an entry level electrical helper and/or apprentice. This course is structured as a combination lecture/shop class. Most classes will consist of a 30-40 minute lesson followed by hands-on shop work where you will practice the skills and theories taught. Students must purchase hand tools from a list provided by the instructor on the first night of class, approx. \$100. Textbook additional (www.wilsontech.org/bookstore)

18FELE112A \$815 M 9/11/2017-1/8/2018
DH-D/Elec 6:30-10PM 52hrs 15 sessions

18FELE112B \$815 W 9/13/2017-1/10/2018
DH-D/Elec 6:30-10PM 52hrs 15 sessions

ELECTRICAL INSTALLATION II

A continuation of Electrical Installation I with emphasis on commercial and industrial systems and problems. Students may purchase additional hand tools from a list provided by the instructor the first night of class (approx. \$50). Prerequisite: Electrical Installation I. Textbook additional (www.wilsontech.org/bookstore).

18FELE103A \$675 TU 9/12/2017-12/19/2017
DH-D/Elec 6:30-10PM 42hrs 12 sessions

ELECTRICAL MOTOR CONTROL

Theory and practical application; wiring diagrams for a wide variety of motor installations and controls. Two textbooks additional (www.wilsontech.org/bookstore).

18FELE104A \$495 TH 9/14/2017-12/21/2017
DH-D/Elec 6:30-10PM 42hrs 12 sessions

INDUSTRIAL ELECTRICITY

Start with a review of basic electricity, Ohm's Law, wiring materials, raceways & boxes, switchboards, panelboards, motors, generators, air conditioning & refrigeration, fire pumps, and move into single phase concepts and residential services, branch circuits and feeders, and calculations. Also covered are conductors and overcurrent protection, wiring methods, transformers, special locations and three phase wiring systems. Knowledge of the National Electrical Code will be used in this course. Prerequisite: Electrical Installation I and II, or field experience. Textbook additional (www.wilsontech.org/bookstore).

18FELE105A \$619 TU 9/12/2017-12/12/2017
DH-C/17 6-9PM 33hrs 11 sessions

MOTOR CONTROL - PROGRAMMABLE LOGIC CONTROLLERS (PLC) - ADVANCED

An advanced class for the experienced electrician who has knowledge of motor controls and Windows for PCs. Review timers, counters, assembling a PLC with switches, and lights, use of the programming software on a PC and learning to program a PLC. Ideal training for traffic controllers or maintenance electricians. Prerequisite: Electric Motor Control or relevant trade experience.

18FELE106A \$815 TU 9/12/2017-12/19/2017
DH-C/10 6:30-10PM 42hrs 12 sessions

NATIONAL ELECTRIC CODE AND TEST PREPARATION

This course is a must for anyone who works in the electrical field and wants to prepare for the Electricians License Exam. Get up-to-date on the new requirements of the National Electric Code. Cover wiring methods, materials and calculations for residential, commercial, industrial, special occupancies and hazardous locations. Study the National Electrical Code including: electrical safety, fire prevention, and electrical codes. NOTE: Before taking the exam, students must have 7 years experience as an electrician. For information about the exam, call the Office of Consumer Affairs at 631-853-4600. Textbook additional (www.wilsontech.org/bookstore)

18FELE113A \$529 M 9/11/2017-12/4/2017
DH-C/26 6-9:30PM 42hrs 12 sessions

SCHEMATIC READING

If you are in the HVAC or Electrical field, this course will help you learn the difference between wiring and ladder diagrams and how to use both. Gain a better understanding of drawing line diagrams. Become proficient in reading and understanding the logic concepts behind these drawings. Gain the knowledge for different testing and troubleshooting techniques for any motor or HVAC equipment. Valuable to take before Electrical Motor Control. Prerequisite: Electrical Installation I or Refrigeration/Air Conditioning Introduction. Textbook additional (www.wilsontech.org/bookstore).

FLOREAL

DIY FRESH FLOWER ARRANGEMENTS

Learn how to make gorgeous arrangements from cut flowers available from the florist, grocery store or your own backyard. The first class covers the fundamentals of floral design after which the instructor will suggest fresh flowers to buy for making your own arrangement in the second class. Supply cost varies depending on size of arrangement (approx. \$25-\$50). If students choose not to make their own floral arrangement, they may still participate in a project with the instructor to learn techniques. First class is approximately 1.5hrs.

18FIDD136A \$59 TH 10/19/2017, 10/26/2017
DH-C/225 6-10PM 5.5hrs 2 sessions

DRAMATIC SILK ARRANGEMENTS

Make a dramatic statement with a silk flower arrangement for that special place or special someone! The first class covers the fundamentals of floral design. Then, in the second session the class will take a field trip to purchase silk floral supplies. Supply cost varies depending on size of arrangement (approx. \$25-\$50). If students choose not to make their own floral arrangement, they may still participate in a project with the instructor to learn techniques. First class is approx. 1.5hrs.

18FIDD126A \$75 TU 9/19/2017-10/10/2017
DH-C/225 6-9PM 7.5hrs 3 sessions

HOLIDAY WREATHS

A beautiful wreath is an easy way to keep your home feeling festive throughout the holiday season. First class covers the fundamentals of designing a wreath. Then, the instructor will suggest flowers and/or vines and materials for you to buy (approx. \$25+) depending on the size of the arrangement you want to make in second class. If you choose not to make your own, you may participate in a project with the instructor to learn the techniques. First class is approximately 1.5 hrs.

18FIDD143A \$59 TH 11/2/2017, 11/9/2017

HEATING, VENTILATION, AIR CONDITIONING (HVAC)

Western Suffolk BOCES is an approved technical and trade school/Adult Education School with NORA (National Oil Research Alliance) and OESP (Oil & Energy Service Professionals). After successful completion of Oil Burner I & II, students are qualified to take NORA Bronze Certification exam. If students successfully complete Oil Burner I & II and Boiler Installation and have three years of certifiable field experience, they are qualified to take NORA Silver Certification exam. Instructor will provide information.

GAS BURNER SYSTEMS - INTRODUCTION

Learn to service gas systems. This introductory course will focus on the gas system, gas water heaters, pilots and millivolts, spark ignition and hot surface ignition. Reference materials provided.

18FHVC102A \$555 W 9/13/2017-11/15/2017
DH-D/D6 6:30-9:30PM 27hrs 9 sessions

OIL BURNER SERVICE I

Learn to install, troubleshoot, repair and service oil burners and tanks including fuel piping. Study basic electricity specific to oil heating, schematic and wiring diagrams, and the test instruments used to diagnose and repair residential oil burners. Lecture/hands on. Textbook additional (www.wilsontech.org/bookstore).

18FHVC103A \$609 TU 9/12/2017-12/19/2017
DH-D/Plumb 6:30-10PM 42hrs 12 sessions

OIL BURNER SERVICE II

Continue where Oil Burner I left off! This class covers an in-depth study of oil burner controls and wiring. Learn to troubleshoot and repair residential oil burner controls specific to oil heating as well as hydronic and steam heating. Learn to use test equipment to set up oil burners for proper combustion and efficiency. Review troubleshooting oil burners, combustion and terminology. Textbook from Oil Burner Service I. (www.wilsontech.org/bookstore). Lecture/hands on. Prerequisite: Oil Burner Service I.

18FHVC104A \$555 TH 9/14/2017-12/21/2017
DH-D/Plumb 6:30-10PM 42hrs 12 sessions

BOILER INSTALLATION

In this hands-on class you will learn complete installation techniques for hydronic residential heating systems. Practice proper soldering techniques as you install pipe A 1 and two-zone hot water boilers as well as other components for residential hot water heating systems. Prerequisite: Oil Burner Service II.

18FHVC101A \$510 M 9/11/2017-11/20/2017

MARINE

MARINE ENGINES & SYSTEMS

This class is designed for boating enthusiasts looking to work on their own boats. Course includes basic operating principles and procedures for tune-ups, water pumps and winterizing procedures. Marine engine technology topics include: working on outboard & inboard engines, stern drive engines and systems.

18FMAR103A \$365 M 9/11/2017-12/4/2017
NPT/119 6-9:30PM 42hrs 12 sessions

MARINE TECHNICAL SPECIALIST

Learn the skills you need to work in the recreational boating industry as a qualified marine technician who can service boats, boat engines and related systems as well as boat yard operations. Wilson Tech's program addresses the rapid advances in marine propulsion technology that now demand a high level of competency and training. Those earning certificates from Wilson Tech will be well-prepared for employment opportunities in boat yards, marinas, and engine repair facilities. Class meets one night/week for theory and one night/week for laboratory work. No classes during school holidays.

The six modules in this course can be completed in nine months. Graduates can obtain valuable industry-recognized certificates that attest to their skills. The program will also help prepare you to take engine certification tests from Yamaha, Evinrude and/or Mercury. To enhance employment opportunities, successful graduates of the program will be well-positioned to seek additional certifications from the American Boat & Yacht Council or the National Marine Electronics Association. The instructor will provide information about the additional preparation required for these certifications.

A basic set of hand tools (likely found in most households) as well as multi-meter and basic diagnostic tools are the student's responsibility, approx. \$2,500 for those with no toolbox. Tools can be purchased as needed based on supply list per module at www.wilsontech/marine.

18FMTS200A \$2339 9/12/2017-6/5/2018 NPT/Rm 119 TU/TH 6-9:30pm 231hrs 66 sessions

BASIC MARINA OPERATIONS - MODULE I

You'll be taught the proper blocking, storing and trailing of boats. Students will practice with powered industrial trucks at a local marina to learn how to move pallets using a forklift, to pick up boats with a boat handling forklift and to prepare to move very large boats with a travel or strap lift. Students who successfully complete this module will earn their Apprentice Boat Bottom Painting and Powered Industrial Truck certificates as well as OSHA Powered Truck Safety certification, all in-demand credentials for employment in the marine industry. Learn excellent customer service skills and how to be a service writer as you gain an overview of the marina as a business. (21hrs)

ENGINE TECHNOLOGY - MODULE II

This module covers the theory of two and four-stroke internal combustion engines for both outboard and inboard engines with modern computer engine controls. Cooling systems and variable valve timing systems will also be covered. (42hrs)

MARINE WIRING & INSTALLATIONS - MODULE III

Learn DC theory, wiring practices, and battery systems. Emphasis is on troubleshooting basic DC circuits. Learn to use ABYC (American Boat and Yacht Council) and NMEA (National Marine

Electronic Association) standards. Gain an understanding of proper installation of electronics for navigation and communication systems. (42hrs)

FUEL AND IGNITION SYSTEMS - MODULE IV

Learn carburetor theory, fuel and fuel delivery technology, fuel pumps, lubrication, boat fuel systems, safety standards and recommended practices. Gain in-depth information on how modern ignitions systems work. Learn current electronic ignition theory and troubleshooting using state-of-the-art test equipment. (42hrs)

ELECTRONIC FUEL INJECTION - MODULE V

Gain a thorough understanding of computerized electronic and direct injection engine operating systems. Heavy emphasis will be placed on hands-on computer diagnostics. (42hrs)

DRIVE SYSTEMS - MODULE VI

Study all drive systems in the industry today. This module covers outboard lower units, stern drive, and inboard transmissions diagnosis and rebuilding including shimming procedures. (42hrs)

BOATYARD OPERATIONS/ INTERNSHIP

Internships may be available for eligible students.

ACOUSTIC GUITAR WORKSHOP

 Looking for a relaxed environment to continue learning while you play? Hone your guitar skills with other like-minded people in a highly supportive workshop atmosphere. This class will focus on standard guitar repertoire, improvisation, reading, basic music theory and performing with others. All levels welcome!

18FMUS117A \$139 TH 9/14/2017-11/9/2017

MASTER PLUMBERS PRACTICAL TEST PREP & LEAD WIPING

Prepare for the Master Plumber's License Practical Test. Successful completion of the Practical Test is necessary to qualify for Master Plumber's License Certification in all Suffolk and Nassau locations. Class will focus on the requirements for the two types of tests now used. Depending on the township where the test is to be taken, students will focus on either the lead wiping portion of the test or fabrication of a lead shower pan and pipe fitting project. Students must purchase tools and materials (approx. \$800 for lead wiping or \$400 for lead pan/pipe project) listed at (www.wilsontech.org/supplies). All tools and materials used in class will be needed for licensing tests. May be taken in conjunction with Plumbing I or II. Prereq: Prior experience in the plumbing trade. Note: to sit for the licensing exam, you must have five years' plumbing trade experience.

SECURITY & INVESTIGATIONS

The following three classes meet requirements for the NYS Department of State for security guards. Each course requires 100% attendance. A student who cancels prior to the start of class receives all monies returned. If the principal of adult education of Western Suffolk BOCES cannot resolve an issue with a student, call the Division of Criminal Justice Services 518-457-4735.

8-HOUR PRE-ASSIGNMENT TRAINING COURSE FOR SECURITY GUARDS

This 8-hour course is required by NYS as the first step in obtaining a security guard registration card from the NYS Department of State. Provides a general overview of the duties and responsibilities of a security guard. Topics include the role of the security guard, legal powers and limitations, emergency situations, communications and public relations, access control, and ethics and conduct. The passing of an examination is required for successful completion of this course.

18FSEC107A \$169 TU 9/12/2017, 9/19/2017
HN/219 6-10PM 8hrs 2 sessions

16-HOUR ON-THE-JOB TRAINING COURSE FOR SECURITY GUARDS

This 16-hour course must be completed within 90 days of employment as a security guard. The course provides detailed information on the duties and responsibilities of a security guard. Topics covered include the role of the security guard, legal powers and limitations, emergency

situations, communications and public relations, access control, ethics and conduct, incident command system, and terrorism. The passing of an examination is required for successful completion of this course.

18FSEC109A \$309 TU 9/26/2017-10/31/2017
HN/219 6110PM 16hrs 4 sessions

8-HOUR ANNUAL IN-SERVICE TRAINING COURSE FOR SECURITY GUARDS

This 8-hour course must be completed within 12 calendar months from completion of the 16-Hour On-the-Job Training Course for Security Guards, and annually thereafter. Provides the student with updated and enhanced information on the duties and responsibilities of a security guard. Topics include the role of the security guard, legal powers limitations, emergency situations, communications and public relations, access control, and ethics and conduct.

Make Your Profile on Social Media Work for You and Your Business!

twitter **LinkedIn** **facebook** *Instagram*

Get practical, real-world insights into the power of social media. Come familiarize yourself with proven techniques and strategies.

SOCIAL MEDIA FOR BUSINESS

Social media can drive meaningful revenue to your business whether you have a brick-and-mortar store or an e-commerce site. Learn how you can use Facebook, LinkedIn, and Instagram to grow your business by understanding how to optimize these social media platforms. Find out how social media tools can help you analyze the effectiveness of your strategies and bring you greater business success. We will help you get up-to-date on social media best practices and teach you how to evaluate the tools that social platforms offer so you can select the best fit for you or your business/organization. Classes are 3 hours, 1 session. **Business accounts must be created prior to attending all Social Media for Business classes below.**

Introductory Courses: Gain an overview of the specific platform and how to tailor that social media tool to your existing business strategies and how to use tools for monitoring trends. Learn from real case studies as you gain hands-on experience.

Facebook for Business	18FCOM116A	\$65	9/11	DH-C/224	M 7–10PM

4 EASY WAYS TO REGISTER!

Registration ends one week before your class begins. Register early, classes fill quickly! Classes are filled on a "first come, first served basis." As classes fill, every effort is made to schedule additional classes to serve your needs. Full tuition must be received before you can enroll in a class. BOCES reserves the right to change locations, times or dates where necessary, or to cancel classes. Make you check or money order payable to: Western Suffolk BOCES.

Unless notified otherwise, you can safely assume your registration is confirmed.

ONLINE — EASIEST!

Follow the instructions at www.wilsontech.org/express
Registration accepted via a secure server.

BY PHONE 631-667-6000 x320

With Visa, MasterCard or Discover Card. Have all of your information before calling.

IN-PERSON REGISTRATION

At Dix Hills campus only. Check, money order or credit card.

BY PURCHASE ORDER

Organizations enrolling staff for training can be invoiced if a PO number is provided.

Western Suffolk BOCES Policies

Parking

All vehicles **MUST** park in designated parking areas. **NO** cars may be parked in designated fire zones, reserved parking or on the grass.

Damage to or Loss of Personal Property

Western Suffolk BOCES assumes no responsibility, either real or implied, for the personal property of any adult student. Students should review their own insurance coverage regarding personal property liability.

Refund Policy for Part-time Programs

1. If we cancel a course, all your fees are totally refunded.

2. If you cannot attend a class that has been rescheduled to a time or place other than advertised, you are entitled to a full refund.

3. If you withdraw from a class before the first scheduled class meeting, a full tuition refund, less a withdrawal fee of \$25, will be made after the withdrawal* is requested in writing.

4. If you withdraw after the first scheduled class meeting but before the second class meeting, one-half of the tuition, less a withdrawal fee of \$25, will be refunded after withdrawal* is requested in writing. **NOTE:** No refunds for any dance or fitness class after the first class begins.

5. All extra costs, such as books or equipment that were not included in tuition price, are not subject to refund.

6. We are unable to provide refunds for requests received after the second scheduled class meeting. Waivers may be granted only under extenuating circumstances which must be detailed in writing within five days of your last day of attendance. If a waiver is granted, it must be used within one calendar year. Decisions to grant waivers are the prerogative of the BOCES administrator whose decision is final.

7. Any overpayment accepted will be totally refunded.

8. There is a \$25 fee for all returned checks.

9. Payments made with a credit card will receive refund credit on their credit card, however, any refund made after 120 days will be issued by BOCES check regardless of how tuition was paid.

NOTE: Every effort is made to provide you a timely refund. Processing of refunds may take 45 days after your first scheduled day of class.

Our programs are supported entirely by student tuitions. No discounts can be provided.

*The date of withdrawal is the date/time your request is received at BOCES.

Refund Policy for Full-time Programs

See the individual program handbooks.

Issues Under Dispute

BOCES has an appeal and grievance policy at www.wilsontech.org/dispute.

Smoking Policy

Smoking is **NOT** permitted anywhere on campus.

Frequently asked questions

What if I do not have a high school diploma?

A high school diploma is not required for most of our evening classes. Western Suffolk BOCES also offers a variety of no-cost ways to complete your high school education. To work toward your High School Equivalency Diploma (TASC) or EDP, see page 38 or call our Career Center at 631-667-6000, x327.

How can I get to Wilson Tech?

Wilson Tech campuses are centrally located and easily accessible by major roadways or public transportation. Maps are on our website, www.wilsontech.org/sites.

Public transportation options to Wilson Tech/ Dix Hills campus on weekdays, 8AM–3PM:

- From S. Huntington & Dix Hills: S29 to Rt. 231 at Lake Ave. Connect with free BOCES shuttle.
- From Huntington/Huntington Sta.: S1, H9A or H9B to Walt Whitman Mall. Connect with free BOCES shuttle.
- From Northport & Greenlawn: H4S to Walt Whitman Mall. Connect with free BOCES shuttle.
- From Dix Hills & Wheatley Heights: S23 to Wyandanch train station. Connect with free BOCES shuttle.
- From Amityville, Copiague, & Lindenhurst: S33 to Wyandanch train station. Connect with free BOCES shuttle.

For more information about bus routes, times and shuttle locations, visit or call the Career Center at Wilson Tech, 631-667-6000, x327.

Can I receive tax incentives for BOCES courses?

The Taxpayer Relief Act of 1997 created the Lifetime Learning Credit, which is a tax incentive to help you offset the cost of your continuing education course work. A family can claim on their tax return a credit equal to 20% of \$5,000 of educational expenses, so the maximum benefit is \$1,000 for each tax year. For further information, contact your tax advisor.

Are there any additional costs?

In some instances students are required to purchase textbooks, personal protective equipment or personal tools. The course descriptions in this catalog will indicate any additional costs or requirements.

Will I receive a certificate?

Yes, you will! Certificates of completion are issued at the last class at no cost to all career & technical education students who have successfully completed a course. To be eligible for a certificate, you must attend 80% of the class sessions (unless otherwise stipulated), and complete all other course requirements with a grade of 80% or above and have paid your tuition in full. Some programs have course-specific attendance requirements.

How do I order a transcript?

There is a \$5 fee for duplicate copies of certificates and transcripts. To order, go to www.wilsontech.org/transcript.

Do Tech courses qualify for veteran's benefits?

Yes, veterans may qualify for complimentary GI Bill® training at Wilson Technological Center through the U.S. Department of Veteran Affairs. For part-time programs contact your local Veterans' representative or call 631-667-6000, x353 to speak with our veterans' advisor. For full-time programs call 631-261-3600, x275. More information about VA education benefits at www.benefits.va.gov/gibill

What if I have a special need?

Many of our programs are appropriate for adults with special needs. Contact the Career Center at 631-667-6000, x152 prior to your first day of class so that our staff can make an effort to assist you with any necessary arrangements. All our facilities are wheelchair accessible.

Does Tech offer gift certificates?

We will gladly issue a gift certificate in any denomination to the person of your choice. To order, send a check or money order in the amount desired to: Office of Continuing Education, Western Suffolk BOCES, 17 Westminster Ave., Dix Hills, NY 11746

Federal Financial Aid

www.fafsa.ed.gov / School Code: 010147

Federal Financial Aid

Available to those who qualify in these programs only:

- Aviation Maintenance Technology
- Automotive Technology
- Esthetics
- Cosmetology
- Diagnostic Medical Sonography
- Practical Nursing
- Surgical Technology

Eligibility Requirements

To receive federal financial aid, you must:

- Be a US citizen or eligible non-citizen
- Be enrolled as a regular student in an eligible program (listed above) at BOCES
- Be a high school graduate, or have a recognized GED/TASC
- For grants, be a student who has not yet earned a bachelor's degree

- Not be in default on previous student loans or owe a refund on previous grants
- Make satisfactory academic progress as defined by BOCES
- Be registered for Selective Service if male and 18 years or older

Determining Financial Need

Generally, financial aid is awarded on the basis of financial need. When submitting a Free Application for Federal Student Aid (FAFSA) at www.fafsa.ed.gov, you are asking the government to look at your income, dependents and assets and calculate how much you and your family can be expected to contribute towards education. Financial need is the cost of education less the amount you can contribute.

The FAFSA determines eligibility for Federal Pell Grants and Federal Student Loans.
