CONTRACTOR'S DATA PRIVACY AND SECURITY PLAN

The Educational Agency (EA) is required to ensure that all contracts with a third-party contractor include a Data Security and Privacy Plan, pursuant to Education Law § 2-d and Section 121.6 of the Commissioner's Regulations. For every contract, the Contractor must complete the following or provide a plan that materially addresses its requirements, including alignment with the NIST Cybersecurity Framework, which is the standard for educational agency data privacy and security policies in New York state. **While this plan is not required to be posted to the EA's website, contractors should nevertheless ensure that they do not include information that could compromise the security of their data and data systems.**

1	Outline how you will implement applicable data security and privacy contract requirements over the life of the Contract.	We govern student PI through a NIST CSF-aligned policy framework. Our CISO oversees compliance, Secureframe runs daily audits, all staff receive security training, and all policies
2	Specify the administrative, operational and technical safeguards and practices that you have in place to protect PII.	AES-256 at rest; TLS 1.2+ in transit; MFA and RBAC for access control; AWS GuardDuty for threat detection; annual penetration testing; daily Secureframe audits. All data in US based
3	Address the training received by your employees and any subcontractors engaged in the provision of services under the Contract on the federal and state laws that govern the confidentiality of PII.	All employees receive onboarding and ongoing training covering FERPA and NYS Education Law § 2-d. Subcontractors with PI access are bound by written agreements requiring compliance with applicable federal and state law.
4	Outline contracting processes that ensure that your employees and any subcontractors are bound by written agreement to the requirements of the Contract, at a minimum.	All employees are bound by our Acceptable Use Policy as a condition of employment. Subprocessors are engaged only after formal security assessment and bound by written agreements extending all applicable data
5	Specify how you will manage any data security and privacy incidents that implicate PII and describe any specific plans you have in place to identify breaches and/or unauthorized disclosures, and to meet your obligations to report incidents to the EA.	We maintain a formal Security Incident Response Plan. Our IRT triages and contains incidents by severity using centralized logging and automated SIEM monitoring.
6	Describe how data will be transitioned to the EA when no longer needed by you to meet your contractual obligations, if applicable.	Upon termination request, we coordinate data export before disposal. All student PI is securely deleted within 30 days of the contractually mandated retention period, more in our privacy
