WESTERN SUFFOLK BOCES REGIONAL PUBLIC SCHOOL ENROLLMENT 2013-2022

During the historical period 2013 - 2019, there was an overall 9.1% decline (7,723 students) in enrollment in the Western Suffolk BOCES region - from a period high of 84,596 students in 2013 to a period low of 76,873 students in 2019. The most significant decline was in the elementary (K - 5) grade configuration, with a loss of 10.7% (3,831 students); the middle (6 - 8) and high school (9 - 12) grades recorded losses of 9.7% (1,961 students) and 6.8% (1,911 students), respectively, during this period.

Smithtown remains the district with the largest enrollment (8,393 students), while Babylon is the smallest district, with 1,554 students in 2019. Between 2018 and 2019, enrollment remained stable (change of less than 1.5%) in eight districts, while losses of 1.8 - 4.8% were recorded in eight districts; gains were recorded in two districts. For the six years between 2013 and 2019, a gain was recorded in one district (Wyandanch), while losses were recorded in 12 districts; enrollment remained stable (change of less than 5%) in five districts.

Overall regional enrollment is projected to further decline by 2,766 students (3.6%) over the next three years. A significantly smaller decrease is projected in the elementary grades when compared to the last six years; however, losses will continue in the middle and high school grades, as smaller cohorts progress through the system.

- The elementary (K - 5) enrollment is projected to decline by 1.0% over the next three years, with a loss of 304 students between 2019 and 2022.
- The middle school (6 - 8) enrollment is projected to decline by 7.2% over the next three years, with a loss of 1,314 students between 2019 and 2022.
- The secondary (9 - 12) enrollment is projected to decline by 4.4%, or 1,141 students, between 2019 and 2022.

Lower birth levels result in smaller kindergarten cohorts. Suffolk County births have declined almost 23% during the last two decades, dropping from 19,862 births in 1997 to 15,334 births in 2017. Consequently, a similar pattern has been seen in kindergarten enrollment in the Western Suffolk BOCES region. Total regional enrollment is expected to continue to decline as exiting twelfth grade classes will be replaced by significantly smaller entering kindergarten classes.

New housing construction or the re-sale of existing homes is one of the contributing factors when analyzing potential school enrollment. Records show a slight decline in housing sales between 2017 and 2018 in two towns - Huntington (-2%) and Smithtown (-1%), while housing turnover in Babylon increased 4% during this period. Increases in the median sale prices of 4 - 7% were recorded in the three towns between 2017 and 2018. Decreases in housing turnover and growth in median sale prices in many areas have been attributed to a lack of available inventory. It is noted that the future impact of the current pandemic and anticipated recession is unknown at this time.

During the last five years, the Western Suffolk BOCES Office of School Planning & Research has conducted over 200 planning studies for school districts on Long Island and in the Hudson Valley region. Comprehensive Long Range Planning Studies include analysis of demographic factors that have influenced historical enrollment or have the potential to impact future enrollment. For further information about the services available through the Office of School Planning and Research, please visit our website: <http://www.wsboces.org/planning>.
